

Interior Design State Event 2017 Family Profile

FAMILY BIOGRAPHY

Single father, Chris Adams, will soon be the proud owner of a 3-bedroom Habitat home in the Metro Denver area! Chris will be sharing this new home with retired, healthy and active parents, Paul and Marcy, as well as his rambunctious twin 6 year old boys, Abe and Taylor. Chris currently works the night shift as a Denver International Airport (DIA) custodian and is pursuing a public health degree in his free time.

The family's current living conditions are unsatisfactory in terms of space and privacy as this is a multigenerational household whose members have different schedules and interests. Noise is also a concern as Chris sleeps during the day while other members of the family are active. The families interests include enjoying the outdoors, reading, family game nights, and focusing on a healthy lifestyle.

DESIGN CHALLENGE

Your challenge is to design the master bedroom which Chris will have to himself as well as the living room where family time is spent. Keep in mind that this is a multigenerational household. Your design should address the needs of all family members.

***NOTE ON FLOOR PLAN**

The floor plan must be printed with no scaling to measure out the correct dimensions.

Once the "Print" box pops up, under the "Page Handling" section and then under the "Page Scaling" dropdown menu select "None".

In order to get the whole floor plan, on one page, in correct scale, it must be printed on 11" x 17" paper with no scaling.
