

## INTERIOR DESIGN STATE EVENT 2019 FAMILY PROFILE

### **FAMILY BIOGRAPHY**

Tom and Sarah are a lovely young couple and wonderful parents to their beautiful daughter Molly, who just turned 5 years old. Sarah is a stay at home mom and Tom has a history in construction and building maintenance. The family immigrated from Ethiopia three years ago and have been enjoying their new lifestyle so far. As a family, they enjoy exploring the outdoors, playing board games and eating traditional Ethiopian meals together.

Unfortunately, Tom has recently been involved in an accident that permanently confined him to a wheelchair. Due to this change in circumstances, their current living conditions are now unsatisfactory. Tom has difficulty maneuvering around bulky furniture, accessing items stored out of reach, fitting through tight doorways and feels as if his home does not suit his needs or the needs of his family.

### **DESIGN CHALLENGE**

Your challenge is to design the master bedroom for Tom and Sarah and the living room for the family. Keep in mind that your design should be appropriate for someone in a wheelchair but should also be functional and comfortable for the family as a whole.

### **\*NOTE ON FLOOR PLAN**

The floor plan must be printed with no scaling to measure out the correct dimensions. Once the "Print" box pops up, under the "Page Handling" section and then under the "Page Scaling" dropdown menu select "None". In order to get the whole floor plan, on one page, in correct scale, it must be printed on 11" x 17" paper with no scaling.
